

ABOUT ME

I am Bala, a Production Designer, architect, and self-taught artist from India. My foundation was built through years of assisting top Indian production designers, refining my craft on large film sets. I have designed over ten independent short films, bringing a distinct creative vision to each project. In India, I also worked as a Set Designer and Assistant Art Director on more than six feature films and multiple commercials. Most recently, I completed my Master's in Production Design at the American Film Institute. With strong artistic sensibility and a collaborative approach, I adapt easily to diverse storytelling styles. I bring versatility, leadership, and a global perspective to every creative team I join.

PRODUCTION DESIGNER
